Professional Experience

2023/06 – 2024/06	**Front-end developer**

Innovation scope ⤢

As a Front-End developer at innovationscope, I was responsible for developing and implementing user-frien dly and visually appealing websites using jquery.

- Collaborated with cross-functional teams to gather requirements, design solutions, and ensure the successful delivery of projects.
- Implemented responsive design principles to optimize the user experience across different devices and screen sizes.
- Utilized my expertise in frontend technologies and best practices to create efficient and scalable code.
- Stayed updated with the latest industry trends and emerging technologies to continuously improve my skills and deliver cutting-edge solutions.

Technical skills

Next.js	React.js
Typescript	JavaScript (ES6+)
Redux toolkit	React Query
Tailwind CSS	Bootstrap
Git & Github	JQuery

Soft skills

Problem solving and critical thinking

Attention to detail

Collaboration and teamwork

Adaptability and flexibility

Time management and prioritization

Self-motivation and initiative

Languages

- Arabic
- English

Projects

2024/08 – 2024/09   **Visual studio clone** ⧉
Dynamic File Explorer UI with Tab Management
I built an interactive file explorer using React.js, with a dynamic folder and file structure. Users can open, clone, and manage multiple file tabs, as well as resize the UI for an optimal experience. The project was developed using TypeScript, Redux Toolkit for state management, Tailwind CSS for styling, React Resizable Panels, and Syntax Highlighter for code display.

2024/06 – 2024/07   **Foodies Community Project** ⧉
Studying Project with Next.js
I developed a dynamic foodies community platform using Next.js. The project allows users to explore various recipes and contribute their own, fostering a collaborative environment for food enthusiasts. The site features a clean and user-friendly interface.Technologies used include Next.js and React.

2024/04 – 2024/05   **Mena Hemaia** ⧉
Personal Portfolio
Developed a personal portfolio website for Mena Hemaia, a finance, tax, and accounting expert, showcasing his roles as CEO of Accountack and founder of MenaTCP. The site highlights his CPA and CIA credentials, audit committee membership, and dedication to financial education. Utilized AI to simplify accounting models and employed social media, tutorials, and posts to aid users in financial strategies. Built with HTML5, CSS3, Bootstrap 5, and React.

2023/05 – 2023/06   **International Contractor** ⧉
Freelance Web Development Project
I developed a user-friendly, responsive website for the IC company, established in Egyptian ports in 1992. The project features seamless navigation and interactive elements, leveraging advanced shipping technology and over 30 years of industry expertise. Technologies used include HTML5, CSS3, Bootstrap 5, and jQuery.
